

## BSIF Registered Safety Supplier Scheme

Cirrus is a member of the British Safety Industry Federation (BSIF) Registered Safety Supplier Scheme

“The BSIF (British Safety Industry Federation) has launched this scheme to advise buyers where they can obtain genuine safety equipment. Supplied companies registered within the scheme have agreed to the scheme’s strict code. Requirements of BSIF membership, such as integrity and a commitment to ethical trading are enhanced by a binding declaration that the safety equipment they offer meets the appropriate standards, fully complies with the PPE regulations and is appropriately marked.

You can be sure that Registered Safety Scheme Suppliers will only supply you with the genuine products, offer sound advice and make every effort not to mislead you.

Each Registered company is subject to standards audits and undertakes to comply with the rules relating to quality conformance and compliance with regulations. In other words, suppliers you can trust who will ensure that you get exactly what you asked for.”

All members of the BSIF are obliged to be honest and ethical and you can be confident they will supply compliant safety equipment.

Companies that sign up to our Registered Safety Supplier Scheme have decided to take this commitment to the next level and subject themselves to regular standards audits. They display the RSS shield to assure customers that their products are genuine and comply with the regulations.
